

# Principal Assessment of Leadership Skills

This one and one-half day assessment includes a self-assessment of leadership skills based on the Learner-Centered Proficiencies for Principals. PALS meets state requirements for principal/assistant principal recertification.

On Day One, the participant completes four activities which simulate job-like actions, reflections on the four activities, and the development of a professional growth plan. On Day Two each participant receives a comprehensive report detailing strengths and challenges to be addressed in the professional growth plan. Other than a brief biographical self-assessment inventory, all work is completed on Day One on site.
