

iPods and Podcasting in Education Seminar

fee includes a 30 GB iPod

WHEN **Revised Date**
August 14, 2007

8:30 AM– 4:00 PM

WHERE

ESC Region 12
2101 W. Loop 340
Waco, TX 76712

GOALS

- To understand the potential of Podcasting as a personal and school communication vehicle
- To explore a wide variety of Podcasting application
- To learn in a hands-on environment how to master the use of an iPod
- To understand how schools are employing emerging learning environments such as blogging and Podcasting for teaching and learning
- To create an effective channel of communication to the school community

Each class is limited to
25 participants

Note: Lunch is provided!

WHAT YOU LEARN

- How to download and manage resources with iTunes, sync the iPod, and access materials from the iPod
- How to use the iPod's capabilities to support teaching and learning
- How to create a podcast and make it accessible to a community of learners

TARGETED AUDIENCE

- Superintendents
- Central Office Administrators
- ESL and ELL Coordinators/Directors
- Campus Administrators
- Lead Teachers

Learn how schools can use blogging and podcasting to support teaching and learning!
