### **Pricing**

All Region 12 districts/schools may purchase netTrekker through ESC Region 12 and take advantage of greatly reduced pricing available at <http://www.esc12.net/instructionalmedia/docs/nettrekker3.pdf>.

### **Key Benefits**

netTrekker is an academic search engine designed specifically for school use. netTrekker enhances teaching and learning with:

- **Over 180,000 high quality, well-vetted, educationally relevant online resources. All content selected by educators, so you get high quality, search results.**
- **Organized around the K-12 curricula so searching is logical and easy.**
- **Aligned with the TEKS/TAKS - a great way to integrate state goals and standards into your curricula.**
- **Over 18,000 lesson plans and learning exercises at your fingertips.**
- **The fast, easy and safe way to find relevant, reliable information on the Internet.**

### **Don't Miss These Exciting netTrekker Features**

netTrekker also has a unique suite of additional features that make it a powerful productivity tool as well as a sophisticated academic search engine such as:

**Dynamic Timeline** creates a cross-curricular, chronological index of eras, events, famous people, art, and innovations within an historic time period.

**Cross-Curricular Search** allows netTrekker to return cross-curricular resources for a particular topic facilitating an interdisciplinary or team teaching approach.

**Save Search** results on our server for later review, modification, or delivery to students and eliminate the need to recreate searches.

**Refine Searches** empower users to target search results on lesson plans, learning exercises, primary source documents, and other valuable elements.

**Current Events** section with over 600 periodicals across all subjects, more than 3,000 domestic and international newspapers, and subject-oriented news stories, updated every 10 minutes.
