Net 3: Trim back the URL

You found this Romeo & Juliet WebQuest that you really like. Are there more like that where this one came from?

Start here:

<http://oncampus.richmond.edu/academics/as/education/projects/webquests/shakespeare/>

Now trim away the last part:

<http://oncampus.richmond.edu/academics/a&s/education/projects/webquests/>

What do you see?

Trim it again, Sam:

<http://oncampus.richmond.edu/academics/a&s/education/projects/>

<http://oncampus.richmond.edu/academics/a&s/education/>

<http://oncampus.richmond.edu/academics/a&s/>

<http://oncampus.richmond.edu/academics/>

<http://oncampus.richmond.edu/>

Net 4: Look for Similar Pages

Query	# Matches
Suppose that you've discovered Tapped In, an online community of educators, and you're wondering what else like that is out there. Using Google's similarity search will surface a number of sites that are likely to interest you. SIMILAR TO: www.tappedin.org	Write the number of hits you get below.
Another way to explore a domain is to find out who else is linked to a page. Who else finds Tapped In useful enough to include on one of their pages? LINKED TO: www.tappedin.org	
Here's another search to try: SIMILAR TO: kids.msfc.nasa.gov
