Subject: DE streaming Update Scheduled for Next Week
Importance: High

Happy Wednesday!

I am VERY excited to be able to give you and your schools some advanced notice about a handful of updates that will be applied to the DE *streaming* site next week. All of these changes will streamline and enhance the overall user experience. Below is the detailed information on the changes that will be going live next week:

Global Video Player

- Selected video segment is now highlighted
- Added # of segments in the title
- Created new "Stream" icon and added Legend for "Stream" and "Download" icons
- Moved curriculum standards for the title under "Description"

Streaming Article Player

- Improved layout for on screen reading

Science Players

- Resized players so the interactives open full screen
- eBook / Reading Passages are better displayed and centered within the new window.

One of the most noticeable changes will be the relocation of the curriculum standards search on the initial page to its new permanent home underneath the search field. Please let me know if you have any questions or about any of these items.

Thank you!

Justin Karkow
