

# Bring Your Own Device Best Practices

Please Join Us for Lunch

**When:** Wednesday, January 18, 2012  
11:30 a.m.–1:00 p.m.

**Where:** Region 12 ESC

Please join us for a “Lunch and Learn” after the January 18, 2012 Technology Coordinators and Contracts meeting. Allen Clingerman, Technology Solutions Architect for GovConnection, will share his expertise about Bring Your Own Device (BYOD) with a vendor-agnostic discussion. Allen has helped districts across the country evaluate, design, fund, and implement technology projects like wireless implementation, network security, technology refresh, data center virtualization, one-to-one programs, and more.

## Come to hear an expert discuss:

- Is BYOD right for your district?
- Can your school district support BYOD?
- Strategies to manage, protect, and secure your IT resources
- New computing technologies that will profoundly change how students interact with district IT resources

Lunch will be provided.
