

New Projects From InfoSource

1. A new promotion on a cost effective training package for school districts of all sizes aimed at helping districts achieve complete technology literacy for teachers and students. Information on this promotion is available on the website <http://www.simpletechlearning.com/>. Districts can sign up for a **free 30-day trial** of our *Integrating Technology into the Classroom with Web 2.0 Tools* through this site.
2. A Free Newsletter that gives teachers immediate technology integration tools and tips for use in the classroom. Administrators and teachers can sign up for this newsletter through the website <http://www.simpletechintegration.com/>.
