School Management System

When you purchase Skyward software, all the calculations, fields, and report options to get your state and federal reports submitted are built right into the software.

## **Complete. Intuitive. The most robust software for your school district.**

If you work in a district - small, medium, or large - you need software that's easy to use and can cross reference data to get you the reports you need. Skyward software solutions are a marvel of simplicity. Our users say they're "imaginative," "intuitive," and "vastly superior to any product on the market."

Skyward software offers advanced capabilities to meet your district goals, create accurate state reports, and improve your district-wide efficiency. From monitoring student progress to analyzing spending, our solution ensures your goals are achieved and your satisfaction is met.

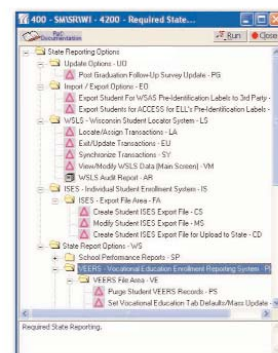

## **State Reporting**

Imagine submitting state reports with software that makes it as easy and accurate as possible.

That's how your state reporting could be with Skyward's School Management System™.

We have an entire department dedicated to working directly with your state's Education Agency to identify new requirements and keep your software up-to-date.

Beyond state reporting requirements, Skyward's system includes hundreds of pre-defined reports for quick access and a data-mining report generator for customized reports on demand.

Skyward software comes packed with the state and federal reports you need, all conveniently located on one screen.
